Re: October 10, 2009 District Executive Board of Directors Meeting

I have scheduled a meeting of the District Executive Board of Directors for October 10, 2009. The location of the meeting is not being designated at this time as I have not had any one Council volunteer to host the meeting. If your Council is interested in being the host, please let me know so that I may put out a notice indicating the site.

Please see the enclosed/attached Tentative Agenda. If there is a topic that you feel should be included in the final agenda please let me know as soon as possible. I have also included/attached a letter reiterating my request for each council to elect a member who will serve on the District's Census Complete Count Committee. This is my third request on this issue, please let me know if you are having problems with selecting a member for this task.
